About me

17+

EXPERIENCE

During the time I have worked on projects of different scales and directions. Besides editing I make color grading, motion design and some graphics, compose, tracking, keying and etc. I have great experience in editing both at post-production and on set.

100+

WORKS

I have edited commercials for international brands, and also several films participated in film festivals and music videos. I collaborate with various international crews and productions from around the world. I edit both independently and with directors.

SOFT

Mostly I use Adobe Premiere and DaVinci Resolve. Also I have an experience of editing in Avid and Final Cut. Of course If tasks requires I use After Affects, Illustrator, Photoshop and etc. My setup allows me to edit material in 4K-5K in real time directly from cameras like ARRI, RED, BMPCC/Canon RAW and etc. It can be important during tight deadlines.

SKILLS

I own various methods, features and tricks in editing/color grading. I like and pursuit to work in different styles and techniques, constantly improving my skills. And I'm always inspired to find and offer creative and technical solutions for each new project.

My English level is more close to advanced. I can fluently speak and write.

| About me

A bit extra about me

In addition, I also have vast experience in broadcast TV mastering (I was mastering on Betacam SP/Digital Betacam/IMX/HDCAM and others tape media), social media mastering (Vimeo/ Youtube/INSTA/Facebook etc.), online cinemas like OKKO, IVI and also DCP mastering for cinemas.

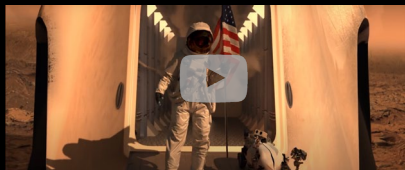

Also I have great practical knowledge and skills in many technical aspects about cameras/grip/light/data storage and backup/editing pipeline and many others as so many years I was editing on set and I often consult crew not only about creative terms and questions of the project, but as technical specialist on pre-production period.

Режиссер - А.Кривонос
Операторы - А.Виталев, М.Тараскиш

Эти зимние поездки по старой дороге на лошадке со звенящим бубенчиком... Душа твоя рвется на встречу ветру, и так хочется запеть: -Вот мчится тройка почтовая... Кибитка подходит к станции. Молодые и горячие путники требовали у станционного смотрителя лошадей немедленно, а бывалые путешественники, как Александр Сергеевич, торопились этим моментом воспользоваться...
